

Microsoft Purview Data Lifecycle Management

Govern your data to reduce security risk and meet regulatory requirements.

Microsoft Purview Data Lifecycle Management provides you with tools and capabilities to retain the content that you need to keep and delete the content that you don't need. Managing the lifecycle of content reduces security risks by decreasing the amount of data exposed in a breach, leak, or theft. It also helps to meet privacy, regulatory, and recordkeeping requirements.

CellTrust SL2™ integrates with Microsoft Compliance to increase mobile productivity and meet robust regulatory compliance

SL2 is seamlessly integrated with Microsoft Compliance solutions enabling Information Governance, Advanced eDiscovery and Communication compliance scenarios for text, chat and mobile communication covering compliance oversight and governance scenarios for our joint customers. With CellTrust SL2 Connector, the mobile communications data captured by SL2 is sent to Microsoft 365 compliance platform to minimize regulatory compliance risks.

Customer Benefits

- Mobile communication data is captured and archived for retention, eDiscovery and communication compliance.
- Helps organizations meet the robust compliance and eDiscovery requirements of FINRA, SEC, FCA, MiFID II, Dodd-Frank Act, GLBA, SOX, FOIA, Sunshine Laws, Public Records Laws, HIPAA.
- SL2 leverages a dedicated Mobile Business Number™ to separate personal and work data for BYOD, CYOD and COPE while protecting staff privacy.
