

SL2™ Enterprise Capture Top Ten

- 1. Easy to stay compliant** with financial regulations with text messages and WhatsApp data captured, archived and eDiscovery ready.
- 2. AI moderation** stops data leaks and risky messages **before** they reach the client.
- 3.** Convenient organization and **separation of Business versus Personal** mobile communications.
- 4.** You can **SMS enable** your existing **office landline** number.
- 5. Automatic Reply feature** allows you to automatically notify clients when you are unavailable, i.e., in a meeting, out of office, outside office hours.
- 6.** You can use the **same business phone number** on **multiple mobile devices** or from a web browser to send and receive messages and calls with clients, and they will all be captured for compliance.
- 7. Messaging Templates** allow you to pre-define commonly used messages and send them **quickly for more efficient messaging**, i.e., disclaimer and consent configurations, sending a link to schedule a meeting, creating a link to a document in box™, Microsoft OneDrive or another secure file sharing platform and sending.
- 8. Scheduled Messaging** feature allows you to send notifications of upcoming appointments.
- 9. Dispatch feature** allows you to **message multiple clients at one time** without exposing their information to each other.
- 10. Security:** your communications are **encrypted in transit and at rest**.
