

CellTrust Stacked Capture

Enhance compliance protection and lower risk

To elevate compliance and reduce regulatory risk, many organizations deploy CellTrust's Stacked Capture solution as a core part of their Corporate Liable device strategy, ensuring comprehensive message capture and peace of mind.

Why choose a Stacked Capture solution for COBO?

If your organization is implementing a COBO Corporate Liable mobile communication strategy, CellTrust's Stacked Capture solution offers powerful advantages you shouldn't overlook.

Capture 100% of all text/SMS/MMS on the device

CellTrust's Stacked Capture deploys both App Capture and Carrier Capture on the same device on the SL2 Enterprise platform to capture 100% of all text/SMS/MMS.

App-to-App secure communication	✓		✓
Delivery receipts	✓		✓
Business signature	✓		✓
Out of Office auto reply	✓		✓
Dispatch messaging	✓		✓
Multiple Mobile Business Numbers (MBNs)	✓		✓

iMessage can be fully disabled

With Mobile Device Management, iMessage can be fully disabled, closing a major gap in mobile compliance. This strategy also allows users to take advantage of the SL2 app's rich user and compliance feature set, capabilities not available through the device's native messaging app.

The key advantage?

Every message is captured, no matter which app is used, ensuring enhanced coverage and compliance without compromising user choice or experience.

App Capture = texts and messages sent over a separate phone number assigned to the SL2 App are captured

Carrier Capture = SMS/MMS messages sent through the carrier network are captured

Stacked Capture = App Capture + Carrier Capture ensures SL2 app texts, messages and the device's native SMS/MMS are captured

BYOD = Bring Your Own Device

COPE = Corporate Owned Personally Enabled

COBO = Corporate Owned Business Only

Spend 15 minutes with one of our solutions engineers to explore adding CellTrust Stacked Capture to your mobile communication compliance strategy. Let's get started!
